

Eleiko IWF Weightlifting Training Barbell Collars

pair

Eleiko Olympic Weightlifting Training Collars are carefully calibrated and IWF certified for training. They feature an attractive chromed metal finish, while distinctive subtle ridges on the surface ensure a secure grip when handling. The collars are easy to operate, simply turn screw fastener to tighten and keep discs in place. A protective inner liner is gentle on equipment and a smart rubber inset prevents collars from "locking up." The collars are designed for training purposes only and change plates must be loaded INSIDE the collars along with the discs.

Features

Designed For

Securely fastening plates on bar during training sessions

Certified

Collars are certified by the IWF for training

Collar Weight

Collars add 5 kg to overall weight on bar when in use and is carefully calibrated to within +10 g / - 0 g for each 2500 g collar.
